Temporary Stop Work and Halt Efforts to Connect the Air Monitor at Standley Lake

Sue G Stiger, Program Director
Environmental Restoration Project
EG&G Rocky Flats, Inc

EG&G is directed to temporarily stop work and halt efforts to connect the air monitor at the northeast end of Standley Lake until further notice. The Department of Energy (DOE) Operable Unit No 3 project manager, Bob Birk, had a conversation with Tracy Spence of your staff on January 13, 1995, and learned that the bald eagles were still not leaving the nest area in the evenings. He verbally instructed Mr Spence to halt efforts to connect the air monitor and to notify Public Service. However, the DOE still plans to build and operate the air monitor near the south shore of Standley Lake, working with the U S Fish and Wildlife Service (USFWS) to that end. The DOE has received USFWS permission to operate the monitor at the southeast end of Standley Lake.

If you have any questions or comments, please call Bob Birk at extension 5921
